Cohasset, March 12, 1917.

At an adjourned meeting held this day the several articles were acted upon as follows:

•Voted: That the following resolution be adopted.

"Whereas the German Imperial Government has, as the President said, forbidden to our people the exercise 'of their peaceful and legitimate errands on the high seas,' and

"Whereas in consequence the President of the United States has severed diplomatic relations with Germany,

"Be it Resolved by the citizens of Cohasset in Town Meeting assembled this twelfth day of March, 1917,

"First, That they commend the President for his unpromising stand in severing diplomatic relations;

"Second, That they rely upon the President to protect American citizens and American ships in their acknowledged rights on the high seas;

"Third, That they urge upon the President the necessity of making immediate preparations against the contingencies of war;

"Fourth, That while they desire peace, they desire peace only with honor, and call upon the President to regain at this time the honor of the American people."

Article 3. To choose all Town Officers not required to be elected by ballot.

Voted: That they be appointed by Selectmen.

Article 4. To act upon the reports of the Town Clerk, Town Accountant, Selectmen, Assessors, Overseers of the Poor, Collector and Treasurer, Treasurer of the Public Library, Di-

rectors of the Paul Pratt Memorial Library, Tree Warden, Highway Surveyor, Board of Health, Board of Fire Engineers, Sealer of Weights and Measures, Inspector of Wires, Selectmen on Guideboards, and School Committee.

Voted: That all of the above reports as printed in *Town Report* be accepted.

Voted: That the Town raise and appropriate the following sums of money:

<i>Article 32.</i>	Memorial Day.....	350.00
<i>Article 33.</i>	Incidentals (including unclassified, etc.).....	2,750.00

Article 34. Interest..... 1,800.00

Article 35. Bonded debt..... 8,000.00

Article 36. Will the Town authorize the Treasurer, with the approval of the Selectmen, to hire what money may be needed in anticipation of taxes of the current year to be paid as soon as money sufficient for the purpose is received?

Voted: That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1, 1917, and to issue a note or notes therefor, payable within one year, any debt of debts incurred under this vote to be paid from the revenue of said financial year.

Article 37. In what manner will the Town collect the taxes and at what time shall they be paid into the Treasury?

Voted: That the taxes assessed for the current year shall be due and payable on the first day of September next; and on all taxes remaining unpaid after the first day of November next, interest at the rate of six per cent per annum from the first day of September to date of payment shall be added. The interest accruing under this vote shall be added to, and be a part of such taxes.

Article 38. What compensation will the Town allow the Collector of Taxes for the current year?

Voted: That \$800 be appropriated for above purpose.

Article 39. To hear the report of any committee heretofore chosen or appointed and act thereon.

Voted: That the following report of the committee on new location for Fire Department building at Beechwood be accepted.

“Your committee met and organized, and have given the

question careful consideration. They find it is impossible to obtain a suitable location for the building, even though it be advisable to move the same. We therefore recommend that this matter be indefinitely postponed."

Article 40. To see if the Town will pay an annuity of \$300 to Philander Bates so long as he lives.

Voted in the affirmative by a unanimous vote.

Article 41. To see if the Town will raise and appropriate the sum of \$1000 to continue the survey of the Town for tax assessors' purposes.

Voted in the affirmative.

Article 42. To see if the Town will raise and appropriate the sum of \$600 to widen and construct that portion of Pleasant Street opposite the premises of Leori Sessions, or act on anything relating thereto.

Voted: That \$600 be raised and appropriated for above purpose.

Article 43. William R. Cole and others: Will the Town vote to revoke its acceptance of the provisions of Section 336 of Chapter 11 of the Revised Laws relative to the election of a Highway Surveyor, said provision having been accepted at a special meeting held April 10, 1908, or act on anything relating thereto?

Voted in the negative.

Article 44. Oliver H. Howe and others: Will the Town raise and appropriate the sum of \$5000 for the purpose of resurfacing Jerusalem Road, beginning at Marsh's Corner and extending toward West's Corner, or act on anything relating thereto?

Voted: That a committee of three citizens be appointed by the Moderator to investigate and consider the question of the betterment, improvement, repair or permanent layout of Jerusalem Road and to confer with any public authorities of the Town, County or State, relative thereto; that one member of said committee shall be the present Highway Surveyor of Cohasset and that another member shall be a member of the present Board of Selectmen; that said committee shall immediately organize and shall report at a special Town Meeting as soon as practicable; and that the sum of \$50 be raised and

appropriated for necessary expenses incurred by said committee. George Jason, Darius W. Gilbert and Walter Shuebruk were appointed as committee.

Article 45. Will the Town instruct the Overseers of the Poor to employ a woman visitor or a district nurse at an annual expense of \$300, or act on anything relating thereto?

Voted: That \$300 be raised and appropriated for above purpose.

Article 46. To see if the Town will make Brook Street a one-way street for vehicles, having the entrance at South Main Street.

Voted: To recommend to the Selectmen that they make Brook Street a one-way street.

Article 47. Will the Town raise and appropriate the sum of \$1500 to repair the planking and timbers of Cunningham's Bridge, or act on anything relating thereto?

Voted in the affirmative.

Article 48. George Jason and others: Will the Town raise and appropriate the sum of \$650 to purchase a scarifier, or act on anything relating thereto?

Voted in the affirmative.

Article 49. Frank B. McAllister and others: Will the Town vote to change the present order of its two annual meetings, making the meeting for the transaction of business precede that for the election of officers?

Voted: That this article be indefinitely postponed.

Article 50. Stanley C. Lary and others: Will the Town raise and appropriate \$200 for the support of athletic activities in the schools, or act on anything relating thereto?

Voted in the affirmative.

Article 51. Philip E. Sullivan and others: Will the Town authorize the Selectmen to petition the Harbor and Land Commissioners for a permit to build a wall from the culvert at Cove Bridge around the property of the Town where the fire houses are located?

Voted in the negative.

Article 52. Philip E. Sullivan and others: Will the Town raise and appropriate a sum of money to build a wall from the culvert at Cove Bridge around the property of the Town where

the fire houses are located, or act on anything in relation thereto?

Voted: That this article be indefinitely postponed.

Article 53. Henry M. Ahearn and others: Will the Town raise and appropriate a sum of money for the celebration of Independence Day and Cohasset Day, or act on anything relating thereto?

Voted: That this article be indefinitely postponed.

Article 54. Joseph E. Grassie and others: Will the Town vote to pay Town laborers 35 cents an hour, 60 cents an hour for one man, one horse and team, and 85 cents an hour for one man, two horses and team, or act on anything relating thereto?

Voted: That the standard rate of pay be as above.

Article 55. Henry B. Kimball and others: Will the Town take any action in regard to the protection of the public rights at Hominy Point, in the matter of the petition of Lewis A. Crossett now pending in the Land Court, as to the employment of additional counsel and the choosing of a committee, or act on anything in relation thereto?

Voted: That a committee of seven be appointed by the Chair composed of Henry B. Kimball and six other citizens to continue search of records for right of Town to title at Hominy Point, and to protect rights of Town. Committee appointed by the Moderator: Henry B. Kimball, chairman, Walter Shuebruk, Joseph D. Hutchinson, Henry E. Brennock, Edward L. Stevens, Cornelius Murphy, Levi Cadose.

Article 56. E. P. Collier and others: Will the Town convey to E. P. Collier a certain lot of land on Highland Avenue, lying between the land constituting his house lot and the lot conveyed by the Town to William Stetson about 1826, and now owned by E. P. Collier?

Voted: That this matter be left to the discretion of Selectmen.

Article 57. Charles W. Gammons and others: To see if the Town will amend its By-Laws by adopting the following article:

Article 4 — Finance Committee

Section 1. At the next Annual Town Meeting after the adoption of these By-Laws there shall be elected a Committee on Finance to consist of seven members, no one of whom shall hold any elective town office to serve for the following terms:

Two for one year, two for two years, and three for three years, who shall serve without pay, and there shall be elected thereto at each subsequent Annual Town Meeting two, two and three members, as their terms shall respectively expire. The term of office of members of the committee so elected at such subsequent Town Meetings shall be three years.

Section 2. The terms of members of said committee shall expire at the close of the Town Meeting at which their successors are elected. Said Finance Committee shall after the conclusion of the Annual Town Meeting organize by the choice of a Chairman and a Secretary, and shall cause to be kept a true record of its proceedings.

Section 3. The Finance Committee shall request each of the various boards and officers having in charge the expenditure of money to lay before their committee on or before the 31st day of January in each year an estimate of the appropriation necessary to be made for their respective departments, and said committee shall request these various boards and officers to appear before them at such times and places as said committee may appoint for conference upon such appropriations.

Section 4. It shall be the duty of the Selectmen within three days after drawing a Town Warrant to transmit copies of the same to the Finance Committee, and said committee shall consider all articles under which an appropriation of money may be made. A hearing shall be given upon all articles to the person or persons whose names appear attached to the same and they shall be notified of the time and place of hearing thereon.

Section 5. Whenever a vacancy occurs in the committee by resignation, failing to qualify or otherwise, the same shall be filled by the committee, and if any member absents himself from five consecutive meetings such member shall be dropped and the vacancy filled. The term of all persons elected to fill vacancies shall expire at the close of the next Annual Town Meeting.

Section 6. It shall be the duty of the committee to make an annual report of its doings, with recommendations for the municipal appropriations in the various departments for the ensuing year, to be printed with the annual reports of the other Town officers.

Voted: That the Town amend its By-Laws by adopting the above article.

Voted: That Articles 58 to 68 inclusive, be left to the Selectmen.

Article 58. Levi T. Lincoln and others: Will the Town vote to place an electric light on pole opposite residence of Rufus A. Bates on Beechwood Street?

Article 59. Paul J. Bates and others: Will the Town raise and appropriate a sufficient sum of money to place and maintain an electric light at the junction of North Main Street and Highland Avenue crossroad near St. John's block?

Article 60. George Jason, Jr., and others: Will the Town raise and appropriate a sufficient sum of money to install and maintain a street light at or near the residence of Hudson Ellsworth on Norfolk Road?

Article 61. George F. Sargent, Jr., and others: Will the Town raise and appropriate the sum of \$45 for the purpose of placing three electric lights on Beechwood Street; one near the double bridge west of the residence of the late Aaron Pratt, one opposite the granite quarry and one near the foot of the hill west of the residence of J. W. Whitcomb?

Article 62. Warren F. Snow and others: Will the Town raise and appropriate a sufficient sum of money to place and maintain an electric light on James' Lane near house occupied by William Tilden?

Article 63. Samuel N. Thayer and others: Will the Town raise and appropriate the sum of \$15 for the purpose of placing an electric light opposite the residence of Samuel N. Thayer?

Article 64. Arthur O. Higgins and others: Will the Town instruct the Selectmen to install and maintain a 60-candle-power electric street light on private way known as "Higgins Court" off Margin Street?

Article 65. Henry E. Sweeney and others: Will the Town raise and appropriate the sum of \$60 for the installation and maintenance of four electric lights on Bow Street, or act on anything relating thereto?

Article 66. Michael Joseph Sullivan and others: Will the Town raise and appropriate the sum of \$15 for the purpose of installing and maintaining an electric light on middle pole at

Cushing Road extension, between Smith Place and Pleasant Street, Cohasset, or act on anything relating thereto?

Article 67. Frederick G. James and others: Will the Town raise and appropriate the sum of \$15 for the purpose of installing and maintaining one electric light on King Street to be placed between the ledges near the residence of Antonio Rosano, or act on anything relating thereto?

Article 68. Dean K. James and others: Will the Town raise and appropriate the sum of \$30 for the purpose of placing two additional lights on Elm Court, one to be located near the bungalow of Frank Salvador, Esq., the second to be located in the hollow near the residence of Percy Hendrie, Esq., or act on anything relating thereto?

Article 69. Zaccheus L. Beal and others: Will the Town raise and appropriate an amount necessary to purchase 1000 feet of fire hose for North Cohasset Hose Company, or act on anything relating thereto?

Voted: That \$650 be raised for above purpose.

Cohasset, April 3, 1917.

Convention of Town Clerks

Third Plymouth Representative District

On the sixteenth day of November, A.D., 1917, the Town Clerks of Hingham, Cohasset and Hull, said towns comprising the Third Plymouth Representative District, assembled at the office of the Town Clerk in Hingham at 12 o'clock noon, for the purpose of examining the returns of votes given in and determining who had been elected to represent said District in the General Court, to be holden at Boston the first Wednesday in January, 1918, proceeded to canvass said returns and found the ballots given in for the several candidates to be as follows:

	<i>Hingham</i>	<i>Cohasset</i>	<i>Hull</i>	<i>Total</i>
George S. Marsh of Hingham.....	613	260	136	1008
William R. Hatch of Hingham.....	1	0	0	1
M. K. Huntley of Hingham.....	1	0	0	1
Arthur Whiton of Hingham.....	1	0	0	1
Blanks.....	75	74	30	179
	<hr/>	<hr/>	<hr/>	<hr/>
Total.....	690	334	166	1190

It appearing that George S. Marsh of Hingham had received a plurality of the votes given in a certificate of election was issued to him.

ARTHUR W. BURR,
Town Clerk of Hingham

HARRY F. TILDEN,
Town Clerk of Cohasset

JAMES JEFFREY,
Town Clerk of Hull

Respectfully submitted,

EDWARD L. STEVENS,
Auditor and Town Accountant

Cohasset, January 18, 1918.

REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Cohasset:

In presenting to you the report of our stewardship for the year 1917 we feel that to deal with all the serious and distressing problems and situations which have confronted this Board would be unnecessary, as the conditions which have existed are familiar to you, and we simply wish to express the hope that our endeavors to meet and dispose of them in a fair and impartial manner meets with your approval, both from a practical and financial standpoint.

The Wheelwright bequest consisting of about eighty acres of wood and pasture land, located between North Main Street and Forest Avenue, has been adjusted to the satisfaction of the Town Counsel and the Board of Selectmen and accepted in accordance with the vote of the Town and the fund bequeathed for maintenance of the property as a public park has been placed in savings banks on interest at four per cent or better.

The original land bequeathed had a frontage of about 130 feet on North Main Street, which was below the grade of the street and on a slope to a pond, which gave a very narrow and poor entrance and would have required extensive filling and grading to have made a safe road of proper width to the main portion of the premises, and a proposition was received by us from Mrs. Herbert A. Tucker, owner of the adjoining land, to straighten the irregular boundary line between this parcel and that owned by her, by an exchange of land, which was adjusted by an exchange deed, whereby the Town surrendered claim to about five (5) acres on North Main Street and received from Mrs. Tucker about ten (10) acres adjoining and next north of the Wheelwright property, giving the Town a frontage of about 400 feet on North Main Street, of clear, level land; also straightening the boundary line between the two properties, and this Board desires to extend to Mrs. Tucker their appreciation of

her courtesy and generosity in bringing about this improved condition of the park property.

The several duties imposed on this Board at the last annual meeting have been executed, with the exception of repairing Cat Dam Gate, which had to be abandoned before completion on account of the early appearance of the cold weather, and the work should be completed as soon as suitable weather permits.

The dam at Gulf Mill was carried away by a high tide last fall, due principally to the condition of the gate supports and frame which were old, having been installed several years ago, and had become eaten out by marine insects. It is our recommendation that a new gate be built and installed during the coming year, and the necessary amount of money raised and appropriated at the next annual meeting in March.

On April 4, 1917, a public meeting was called to take such action as the citizens desired toward forming a Public Safety Committee, for the protection of the Town and to prepare for the questions which would necessarily arise in event of war being declared. The matter was left with the Selectmen, who appointed the following committees:

**Cohasset Committee on Public Safety. Board of Selectmen
and Chairmen of Sub-Committees Acting as General
Committee**

Edward L. Stevens, Clerk.

Sub-Committees

Executive Committee: Harry E. Mapes, Chairman; Herbert L. Brown, Darius W. Gilbert, Edward L. Stevens, Town Accountant, acting as Clerk. *Finance:* Charles W. Gammons, Chairman; James Dean, Secretary; Clarence W. Barron, Edwin L. Furber, Herbert A. Tucker. *Co-ordination of Aid Societies:* Dr. Oliver H. Howe, Chairman; George W. Collier, Secretary; Mrs. Morton S. Crehore, Mrs. Henry B. Pennell, Mrs. Dean K. James. *Food Supplies, Production and Conservation:* Manuel A. Grassie, Chairman; G. Hovey Dodge, Secretary; George Jason, William H. McGaw, Charles H. Trott, Thomas L. Grassie, Walter S. Kerr, Elmer E. Bates, William W. Bates, Edwin W.

Bates, Joseph E. Grassie. *Publicity*: Edward E. H. Souther, Chairman. *Protection of Public Works*: Thomas L. Bates, Chairman; George Jason, Jr., Secretary; Henry E. Brennock, Daniel N. Tower, Harry R. Pratt, George B. Gough. *Home Guard*: Henry B. Pennell, Chairman; Harry S. Parker, Secretary; Dudley S. Dean, Thomas F. Stoddard, Edward F. Willcutt. *Recruiting*: Stanley C. Lary, Chairman; Roscoe H. Tisdale, Secretary; Rev. Howard K. Bartow, J. Wentworth Earle, Everett W. Gammons, Alexander S. Hiltz, Thomas J. Murphy. *Horses*: Marshall S. P. Williams, Chairman; Harry F. Tilden, Clerk; Thomas J. Ayers, Arthur A. Davenport, Henry L. Willard. *Trucks and Motor Cars*: Anselm L. Beal, Chairman; Fred M. Grassie, Secretary; E. Harold Brown, Thomas J. Lyons, Ernest C. Ruiter, Alfred M. Silvia.

The Selectmen desire to take this opportunity to extend to the members of the above committees their sincere appreciation of their prompt response, efficient work and wonderful results accomplished.

The Board desires to record below the result of the work of the "Committee on Home Guard," which has developed into a Company of the Massachusetts State Guard, and reflects great credit on the committee and honor to the Town. The organization comprises the following citizens as of December 31, 1917:

**State Guard, Company G (37th), 14th Regiment,
Cohasset, Mass.**

H. B. Pennell, Captain	J. E. Keefe, Corporal

On July 29, 1917, a special committee arranged an informal reception to the enlisted men in the service of the United States, which was held on the Common, and an appropriate program was carried out very satisfactorily, a special feature being the presentation of a souvenir badge to each of the men by the Chairman of the Board of Selectmen, on behalf of the citizens of the Town.

While the Selectmen feel that every citizen fully realizes the seriousness of the conditions which confront us at this time on account of the war, they nevertheless feel it their duty to impress upon all the supreme necessity of carefully considering all expenditures of money during the coming year, and to use

every effort to reduce to a minimum amount all moneys to be raised and appropriated at the annual meeting in March, next.

Respectfully,

HARRY E. MAPES,
HERBERT L. BROWN,
DARIUS W. GILBERT,
Board of Selectmen.

Cohasset, January 1, 1918.

REPORT OF BOARD OF SELECTMEN, ACTING AS A COMMITTEE ON GUIDEBOARDS

During the year 1917 new guideboards were erected on the following streets: Ripley Road, Cedar Street, Sohier Street, Nichols Road, Bow Street, Smith Place, Stockbridge Street, Parker Avenue, Spring Street, Pleasant Street, Church Street, Elm Street, and Joy Place.

All other guideboards have been inspected and found to be properly posted and directed.

The Selectmen desire to extend their thanks to Dr. Oliver H. Howe for his assistance in erecting the above-mentioned street signs.

Respectfully submitted,

HARRY E. MAPES,
HERBERT L. BROWN,
DARIUS W. GILBERT,
Selectmen of Cohasset.

ASSESSORS' REPORT

Cohasset, December 31, 1917.

The Assessors of the Town of Cohasset herewith submit their report for the year 1917.

We again call the attention of all citizens to the new tax law requiring a return to the Assessors of all taxable real estate and tangible personal property.

We show a decrease in our personal valuation. The decrease in our personal property is due to the intangible personal property being assessed by the Tax Commissioner of the Commonwealth.

The Town has received from the State on account intangible personal property the sum of seventy-one thousand two hundred twenty-nine dollars and seventy-nine cents (\$71,229.79). This amount exceeds our 1916 personal valuation three thousand one hundred ninety-six dollars and thirty-nine cents.

With this increased amount, and an increase of two hundred eleven thousand two hundred forty-five dollars on real estate, your assessors are enabled to show a decrease in the tax rate of \$1.50 per thousand.

Valuation of real estate, April 1, 1916.	\$5,267,404.00
Valuation of personal estate, April 1, 1916.	4,535,560.00

Total.	\$9,802,964.00
Increase in real estate, 1917.	\$211,245.00
Decrease in personal estate, 1917.	3,857,611.00

Total decrease.	\$3,646,366.00
Number of polls, April 1, 1917, 968.	\$1,936.00
Valuation \$6,156,598 at \$13.50.	83,114.07
Fractions in making tax.	4.31

Total.	\$85,054.38

Wheelwright, their bequest of \$15,000, which has been duly invested, the income only to be available and to be applied, as may be required, towards the maintenance of the Wheelwright Park.

NEWCOMB B. TOWER,
Treasurer and Collector of Taxes.

Cohasset, December 31, 1917.

REPORT OF THE BOARD OF FIRE ENGINEERS

For the Year Ended December 31, 1917

Cohasset, January 25, 1918.

To the Board of Selectmen.

Gentlemen: The Board of Engineers appointed by your honorable Board for the year ending April 30, 1918, met in accordance with your instructions and organized with the following choice of officers:

Chief, Henry E. Brennock.

Assistant Chief, George Jason.

District Chief, George F. Sargent, Jr.

District Chief, Sidney L. Beal.

Clerk, Thomas A. Roche.

The Department has been called to answer 58 alarms during the past year. The buildings at the Cove are in very good condition and the heating apparatus has proved a success.

We respectfully recommend that the sum of \$4000 be raised and appropriated for maintenance and salaries. We also recommend the sum of \$500 for purchase of new hose. Your Board recommends the purchase of a pumping engine of 500 gallons' capacity, of a standard make.

Respectfully submitted,

H. E. BRENNOCK, *Chief*,
 GEORGE JASON, *Assistant Chief*,
 GEORGE F. SARGENT, JR.,
 SIDNEY L. BEAL,
 THOMAS A. ROCHE.

COMMITTEE ON ADDITIONAL FIRE PROTECTION

To the Honorable Board of Selectmen, Cohasset, Mass.:

The Committee appointed by the Moderator under vote of the Town to investigate the need of additional fire protection for the Town of Cohasset has held several meetings, given careful study to the situation, and now wishes to report as follows:

The first step to get at the actual condition of the Town with respect to fire protection demanded a careful inspection of the Town by the New England Insurance Exchange, which exchange fixes the insurance rates of communities throughout New England, based on fire hazards and protection therefor.

Under date of July 13, 1917, Mr. John S. Caldwell, engineer of the New England Exchange, submitted his report, which is in detail, has been filed with the Board of Selectmen, and is open to the inspection of any citizen of the Town.

The report of Engineer Caldwell, following careful tests, showed that the water pressure in certain sections of the Town is insufficient for adequate fire protection.

The Water Company can hardly be expected to make radical changes in its system under the present high cost of materials and labor, unless additional revenue can be assured them to warrant the outlay.

The Water Company has signified its intention, whenever replacements are made, of putting in larger pipes in place of small pipes, and it has been further stated that the company will within a reasonable time complete their main on Ripley Road, so that if any emergency should arise shutting off the Main Street line, there would be a parallel line via Ripley Road.

Under existing conditions, the most practical remedy, in the opinion of Mr. Caldwell, is that the Town purchase a motor-driven pumping engine, and the Committee after investigation concurs with Mr. Caldwell.

In his report Engineer Caldwell makes definite recommendations as follows:

That the service be improved by installing a 750-gallon automobile combined pump, chemical engine and hose wagon (the pump to meet Exchange requirements) at the central fire station, in addition to the present automobile combination, and that the fire department be reorganized on a basis which will require four full-paid men and twenty part-paid call men.

A pumping engine of the kind Mr. Caldwell proposes will cost approximately \$10,000. The Committee does not believe that the Town needs both a new pumping engine and the present automobile combination. To keep both would require the securing of additional housing for the apparatus at a very considerable expense.

The Committee, therefore, recommends that a pumping engine be purchased to replace the present automobile combination and that the latter be sold. In the opinion of the Committee, upon the installation of such a pumping engine as is proposed, two full-paid men will be required, but no more. The Committee also believes that the call men should be paid on the basis of actual service rendered.

In coming to this conclusion the Committee has had the opportunity of looking through the fire engineers' reports in various towns in Massachusetts, and has had the advantage of investigations on this same subject recently made in the towns of Wellesley, Needham and Nahant.

Respectfully submitted,

WILLIAM R. SEARS,
HERBERT L. BROWN,
HERBERT E. FERNALD,
HENRY E. BRENNOCK,
CHARLES W. GAMMONS,
Committee on Fire Protection.

Cohasset, Mass., January 30, 1918.

REPORT OF SEALER OF WEIGHTS AND MEASURES

The Board of Selectmen.

Gentlemen: Your Sealer in submitting his fifth annual report would reaffirm his approval of the standard of weighing appliances now used in Cohasset and the care evidently taken both as regards its maintenance and its use. New and improved devices are added yearly, and no suggestion of your Sealer has failed to meet a ready response on the part of our merchants.

The following table will show a portion of the routine work of the department, but the detailed work regarding inspections, reweighings, licenses, etc., is of necessity omitted and is embodied in a special report to the State Commissioner.

	<i>Adjusted</i>	<i>Sealed</i>	<i>Condemned</i>
Scales	22	83	3
Weights	147	..
Measures	73	2
Pumps	2	7	..
Miscellaneous	4	..
	<hr/>	<hr/>	<hr/>
	24	314	5

Reweighings of bread, butter, oleo, tea, coffee, raisins, and spices have been made during the year, also hay, grains, feeds, etc., and results clearly indicate that, notwithstanding high prices and the scarcity of many commodities, manufacturers are still holding to the letter of the law. Bread in every instance has exceeded the legal weight and the last reweighings in November showed an excess of rising thirty ounces to the dozen loaves.

Package foods, so called, of every description by the law effective September 3, 1915, are now required to state the net weight of their contents on each package, an easy check within the reach of every housewife.

Commodities other than those outlined in this report will receive the attention of the Department at such time as re-weighings can be made without interfering with the public comfort and convenience.

Yours respectfully,

CALEB NICHOLS,
Sealer of Weights and Measures

Cohasset, January 9, 1918.

\$441.92

GEORGE YOUNG.

SUPERINTENDENT OF MOTH WORK

To the Citizens of Cohasset:

I herewith submit my report as Tree Warden and Moth Superintendent.

Owing to the consolidation of the offices of the Tree Warden and Moth Superintendent, the work has progressed in a much more satisfactory manner, simplifying the work and making a substantial saving, thereby allowing more work to be done for the usual appropriations. The amounts paid various individuals for labor, etc., can be found itemized at the Town Accountant's office.

I submit the following locations of new trees planted, this year, together with cost:

15 trees, Ash Street.....	\$8.33
9 trees, Short Street.....	5.55
9 trees, Cushing Road.....	5.56
8 trees, Beechwood Street.....	9.40
4 trees, Stockbridge Street.....	2.78
2 trees, Elm Street.....	1.39
2 trees, Summer Street.....	1.39
2 trees, Margin Street.....	3.12
1 tree, Ripley Road.....	1.39
1 tree, Border Street.....	1.39

53

\$40.30

Staking and all other necessary work on all transplanted trees was attended to. Many dangerous trees have been cut down, and other work on the trees was done as far as the appropriation would permit. I do not recommend an increase in the appropriation this year, as the tax payers have all the tax burdens they should carry until the war ends. The appropriation of \$800 could not be reduced without neglecting the care of our shade trees.

More interest is being taken in the suppression of the moth each year. (See Town Accountant's report for work done under "Private Liability.")

I am convinced by the orders for work to be done that I have already received, that next year's expenditures by private parties will far exceed this year's.

I have made savings in the Moth Department wherever practicable, allowing such amounts to be expended in labor which was most needed.

I caused the insurance, placed upon the moth wagons by my predecessor, Mr. Grassie, of \$3000, which carried a very high premium, to be reduced to \$2000, about the value of the present wagons. We have four wagons in all, two are practically worthless, one not being used for the past six or eight years; the other is of little value and is not used. I recommend the sale of these two wagons to save the expense of storage, etc. It is useless to keep them as a source to create repair bills.

The estimated value of stock and tools of the Tree Warden and Moth Departments on January 1, 1918, was \$3000.

I have given my entire time to the Departments of which I have charge. I have received the appointment from the State of Moth Supervisor for 1918 and trust I shall again receive a majority of the votes of the citizens of Cohasset to elect me to the office of Tree Warden.

For the good of all the citizens of Cohasset, these two offices should be conducted as one.

Respectfully submitted,

GEORGE YOUNG.

REPORT OF BOARD OF HEALTH

There have been reported to this Board the following cases of infectious and contagious diseases for 1917:

	<i>Cases</i>
Chicken pox	10
Diphtheria	3
German measles	1
Infection of the eye	2
Measles	60
Mumps	14
Scarlet fever	2
Tuberculosis	6
Typhoid fever	1
Dysentery	2

The Board considers James Brook a menace to the health of the Town and it will be so until an efficient sewage system is installed.

There has been a site selected in Braintree, Mass., to build a hospital upon, for consumptives, for the towns of Norfolk County. This hospital will be maintained by Norfolk County.

Dr. George Osgood having resigned from this Board and entered the Medical Reserve Corps of the United States Army, Dr. Frederick Hinchliffe was according to law elected to fill the vacancy for 1917-18.

We believe a thorough examination at frequent intervals of our school children should be made (in school) to discover infectious or contagious diseases, as it has proven the best way to check a spread of such diseases. The usual number of complaints have been reported and investigated.

The State has a Health Officer representing each district. Dr. Merrill E. Champion of Wollaston is our representative, who at all times has been of great assistance to this Board.

Respectfully submitted,

WARREN F. SNOW, *Chairman*,
IRVING F. SYLVESTER, *Secretary*,
FREDERICK HINCHLIFFE, M.D.

Examining Committee.

Cohasset, January 5, 1918.

REPORT OF THE DIRECTORS OF THE PAUL PRATT MEMORIAL LIBRARY

We herewith submit our report for the year ending December 31, 1918. The funds of the Library have been increased \$4015.04. This amount was received from the Harriot E. Pratt bequest in the settlement of the James Longley estate, and has been invested in Liberty Bonds.

The indebtedness to the James Longley estate of \$1100, incurred when the new stack rooms were added has been paid. The Library building has been painted inside and out. A new hot water heater is being installed to take the place of the worn out hot air heater.

The reports of the Treasurer and Librarian which are subjoined, give details of the work of the Library and of the cost of its maintenance.

CHARLES C. WHEELRIGHT, *President*,
FRED V. STANLEY, *Clerk*
WILLIAM R. COLE, *Treasurer*,

The total amount of money spent during the year for books has been \$391.60.

Respectfully submitted,

SARAH B. COLLIER,
Librarian.

REPORT OF HIGHWAY SURVEYOR.

Cohasset, Mass., February 2, 1918.

To the Citizens of Cohasset:

Following is my report as Highway Surveyor for the past year. Realizing the unsettled financial conditions of the country your Highway Surveyor did not ask any increase in appropriation at the last annual meeting, the amount voted being the same as the previous year with an adjustment on account of the increased wage of labor and teams. All material in use by the Highway Department has increased in cost, Tarvia, which is one of the largest items of expense, having increased in cost to a considerable amount.

Nevertheless our roads and highways have come through the year in good condition. A certain amount of new road has been constructed and all others kept in proper condition by patching and ordinary repairing. Upwards of one thousand feet of new work was done on Pond Street from the point where the work terminated the previous year to nearly across the swamp near King Street. It will be possible to finish this road this year and we will have a good, substantial Tarvia road in excellent condition from end to end. The road was widened to 14 feet on a substantial foundation of field stone bound with small stone, the voids being filled with coarse gravel, about 1350 loads of stone and gravel being used on this job. The work was then given two coats of Tarvia.

King Street from the residence of Mr. Worrick to the foot of the hill at William C. Rogers' was widened and gravelled; two other places on this street were treated in a similar manner, also Sohier Street from King Street across the swamp, and the Beechwood end of Doan Street. Considerable work has been done to the various sidewalks in different parts of the Town, in many places it having been necessary to raise them several inches. It has probably been noticed that each year the

amount of concrete sidewalks in the center of the Town has increased. It will be good policy to continue this plan during the coming year as the sidewalks are durable and the cost to the Town reasonable, since the abutter pays one-half the cost. The building of the sidewalk along North Main Street was continued to the ledge opposite Mr. Dolan's property. This ledge is drilled ready for blasting but before the sidewalk can be finished the Town must take a small strip of land from the property of Mrs. F. Field, as the Highway Commission will not allow any other proceeding.

The usual attention was given to the painting and repairing of the fences. Spring Street was widened at the first railroad crossing and a new piece of fence constructed. The wall at the Mill Bridge, the widening on the hill on Pleasant Street and the replanking of Cunningham's Bridge were covered by carefully drawn specifications and the work let out to contract, the results obtained being entirely satisfactory. The work near the Mill Bridge cost about five hundred dollars, but the bad conditions which have existed for some time have been remedied.

All property under the charge of the Highway Department has been kept in good condition and the crusher has been used to a considerable extent. A larger quantity of fine material has been crushed and used than formerly, as with the increased use of automobiles in the winter I find that ruts are formed and the surface of the roads wears off along these paths. This condition is caused by the ruts forming after a snow storm and all traffic following the same path, the roadway beneath is subjected to an unusual amount of wear.

In closing I would like to bring the following points to the attention of the citizens for their fair consideration. The work of the Highway Department of Cohasset is done along lines which experience has shown to be the best. Your Highway Surveyor is a member of the various associations of road builders which meet periodically throughout the State during the year, and he attends these meetings and studies the problems that are presented. All the best literature and lectures on road problems are available to him. He is in contact with the State Highway Commission and with other Highway

surveyors throughout the State. Moreover the firms who deal in road material such as Tarvia and road machinery maintain experts who advise and help in every problem which may come up. I mention these facts that no one may feel that our work in Cohasset is done in any isolated fashion or method, but rather that our problems and methods are those common to every town and city.

I would like also to point out that with the exception of possibly one and one-half miles, all our roads are covered with tar coating. There are very few towns which may with truth make this statement. Any comparison of our cost per mile under these conditions with a town of greater mileage which maintains a large percentage of dirt roads which receive little or no expenditure upon them, is an erroneous comparison. With the present price of Tarvia the amount used on the streets of Cohasset represents a large portion of the appropriation of the Highway Department. I will likewise mention the labor situation as it exists today in Cohasset as one of the difficulties to be overcome.

I feel sure that with the courtesy and co-operation of the citizens in the future as has been evidenced in the past in many instances, the Highway Surveyor may look forward to a year of successful accomplishment in spite of the many unusual difficulties presented by the war in which we are now participating.

My financial accounts follow:

ASSETS OF THE HIGHWAY DEPARTMENT

One stone crusher and drills, one	
Farquhar steam boiler and steam	
drill.....	\$1,250 00
One Buffalo steam roller.....	1,050 00

REPORT OF THE OVERSEERS OF THE POOR

The unpaid bills against this department at the beginning of 1917 were \$1137.52, and at the close of the year they are \$184.86, showing a decrease of \$952.35.

The insurance on the Cohasset Home was renewed at a cost of \$425.

Dr. Frederick Hinchliffe was appointed Town Physician.

The services rendered by Miss Agnes Weir as district nurse have been of general benefit to our community and the Board recommends the continuance of her services and the payment by the Town of \$300 toward her wages.

The cost of maintenance of the Cohasset Home shows an increase due to the higher cost of food and materials.

The usual good care of the residents of the Home by Mr. and Mrs. James H. Pinkham has continued, and the Overseers always find the affairs in a very satisfactory condition. A good supply of vegetables was raised on the farm. A new cow was purchased during the summer, to replace one which was sold on account of old age and having passed usefulness.

The outside assistance rendered during the year shows a decrease of \$273.12 over last year. Several have been helped to secure work, thereby enabling them to earn their own living.

The Board recommends the appropriation of \$7500 for 1918.

DARIUS W. GILBERT,
HERBERT L. BROWN,
HARRY E. MAPES,

Overseers of the Poor.

Organization

George Jason, Jr.	Chairman
Anselm L. Beal.	Treasurer

Regular Meetings

First Monday of each month at 7.45 p.m.

Superintendent of Schools and Secretary of the School Committee

Stanley C. Lary, telephone 304-W.

Office of the Superintendent

Osgood School, telephone 349-W.

The Superintendent's office is open on school days from 8.30 to 12, and from 1 to 4.30. The Superintendent's office hours are from 8.30 to 9, and 3 to 4.30 on each school day.

School Physician

Oliver H. Howe, M.D., telephone 14.

School Nurse

Miss Agnes Weir, telephone 250.

Attendance Officer

Thomas L. Bates, telephones, residence 305 and office 372-W.

School Calendar, 1917-1918

Fall term opens September 10, closes December 21. Winter term, first half opens January 7, closes February 15; second half opens February 25, closes April 12. Spring term opens April 22, closes June 19. Fall term opens September 9, 1918.

No-School Signal

Instead of the customary fire-alarm signal, the electric street lights will be used. The current will be on five minutes, 7.30 to 7.35, sessions suspended for Grades 1 to 8, inclusive. 7.45 to 7.50, sessions suspended for all schools.

Supervisors and Teachers, 1917-1918

Supervisor:

Mrs. Edward L. Stevens — Music (1913).

Teachers:

Minnie E. Bigelow — Commercial Subjects. Grades 9 to 13 (1902).

Marion C. Chandler — Modern Languages. Grades 8 to 13 (1910).

Vida Dunbar — English, Foreign Language. Grades 9 to 13 (1918).

Martelle E. Giles — Commercial Subjects. Grades 9 to 13 (1917).

Beatrice W. Jardine — Home Economics. Grades 7 to 13 (1916).

Fred Chandler — Manual Training. Grades 7 to 13 (1917).

Lloyd F. Stair — Mechanical Drawing. Grades 7 to 13 (1916).

Martha P. Bates — History. Grades 5 to 8 (1880).

Florence E. Kraus — Drawing. Grades 1 to 13 (1914).

Genevra L. McCaw — Reading and Spelling. Grades 5 to 10 (1916).

Theo Wilson — Arithmetic. Grades 5 to 8 (1915).

Rosa C. Gushee — Geography and Penmanship (1917).

Elizabeth Hammond — Language, Composition. Grades 5 to 8 (1917).

June Simmons — Grade 4 (1915).

Elaine Wing — Grade 3 (1916).

Ruth P. Forbes — Grade 2 (1917).

Sarah E. Fox — Grade 1 (1883).

Esther Plaisted — Assistant (1916).

Kathleen McMahon — Kindergarten (1915).

Clara Josselyn — Beechwood, Primary (1917).

Lot W. Bates — Unassigned Assistant.

(The date in parentheses indicates the year when service began in Cohasset.)

REPORT OF THE SCHOOL COMMITTEE

The past school year has been one of co-operation and accomplishment. For some years past there has been an insistent demand for a kindergarten. At various times the School Committee has considered this demand but deemed it impossible until an addition was made to the school plant.

The room on the second floor of the Bates Building has always been considered a possibility, but while this building was controlled by a board of trustees, it was impossible to spend money raised for school purposes in making the needed alterations to conform with the demands of the State as regard school buildings.

Early in the fall of 1918 the Selectmen, Trustees of the Bates Building, Town Counsel and School Committee at a meeting discussed the advisability of transferring this property to the Town as a piece of school property in order that there should be no question as to the legality of the work of the School Committee. It was finally agreed that the transfer should be made, and the proper legal steps were taken to place the property in the hands of the School Committee, pending final action by the citizens at the Annual March Meeting.

An article covering this transfer has been placed in the Town Warrant and favorable action by the voters means that the building will become an integral part of the school plant.

The citizens should remember that the money used to acquire the property some years ago was raised by organizations and citizens of the community and that the present act of taking over the property was contemplated when the property was purchased.

Last spring the School Committee discussed the coal situation, and a sub-committee made a thorough investigation.

It reported a probable scarcity of coal, and advised the purchase of a year's supply. The School Committee voted to do this, and built auxiliary bins at the Osgood School.

The Committee does not wish to appear boastful, but con-

sidering the school situation in other communities in the State, it can only take a just pride in the fact that owing to its foresight the schools have been in continuous session except for the regular vacation.

The Committee regrets to report the resignation of Sheldon N. Ripley as a member of the Board. Mr. Ripley was elected to the Board three years ago. He has been a valuable and efficient member, much of his term serving as Secretary.

Transportation costs have increased this year. Barge contractors have felt the increase in cost of feeds and have consequently increased their charges.

Again, the discontinuation of trains has compelled the Committee to place a barge on the North Cohasset route, which has made a material increase in expense.

Draft rejection of many young men, because of poor teeth, led the Committee to a discussion of the advisability of appointing a school dentist. Should a bill which is now before the legislature authorizing towns to appoint school dentists pass, the Committee will undoubtedly take favorable action.

Certainly it is a matter which should receive immediate attention.

The Committee wishes to urge on the citizen the importance of maintaining the high standards already set in our schools.

With the general increase in the cost of living, salaries must necessarily increase, and if we are to obtain and retain competent teachers we must pay good salaries.

Many occupations are now paying wages which make the wages of a school teacher look insignificant, and it is essential that consistent increases be made in order that our school may not suffer.

Estimate of Amount Which Will be Required for the Current Year

General expense:

Expenses of School Committee, salaries and expenses of Superintendent.....	\$1,500.00
--	------------

Expenses of instruction:

Supervisors' and Teachers' salaries.....	20,500.00
Textbooks.....	800.00

 WALTER SHUEBRUK.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Cohasset:

I submit herewith my fifth Annual Report, which is the thirtieth in the series of Annual Reports of Superintendents of the Cohasset Public Schools.

In my reports for the past four years, I have discussed in detail the changes which have taken place in the organization and curriculum of our schools, and have stated as clearly as possible the reasons underlying and justifying these changes.

As organized today, the Cohasset schools offer a rich, full and varied program of studies. Since the reorganization, in 1914, many refinements and adjustments have been made, and, especially during the past year, attention has been given to co-ordinating the work already set up.

Aside from a woeful lack of attention to the physical side of education, which is general, and not local, I think we may say without boasting that we are now offering to our boys and girls educational opportunities on a par with the best to be found in suburban communities.

In this report I wish to give a very brief summary of the content and aims of the work which now obtains in our schools.

The Elementary Schools

Reading in the Lower Grades

In the lower grades the Aldine method is still used, and the Aldine readers are used as the basic texts. A wealth of the supplementary reading material has also been provided for the use of these grades. The teachers are thoroughly familiar with the method, and also with the best practices in reading, and constantly vary their work, in order to maintain interest. Dramatization, story telling and other activities are a part of the daily program.

Reading in the Upper Grades

Beginning with grade five, the schools are organized on a departmental basis. The reading in grades five to eight inclusive, is in charge of one teacher, professionally trained for the work. Good basic texts are in use, but suitable supplementary material for reading in these grades is not easily obtainable, as much of it is copyrighted. In these grades strict attention is given to thought content as well as expression, in order that pupils may not become mere "word callers."

Spelling

Within the last decade interesting and instructive investigations and experiments have been made in this time-honored subject. Word lists have been devised and gradations made as regards difficulty. In this way the number of words which the pupil is expected to spell correctly is materially reduced, and the words themselves are in keeping with the pupil's natural vocabulary.

Again, much that is of value as regards the learning process has been made accessible to teachers. The importance and relation of punctuation, meaning, etc., has been brought out also the superiority of short, frequent periods over the longer and less frequent ones, and finally, the importance of systematic reviews and standards. All these things have been constantly before us as teachers, and the results have been satisfactory.

Handwriting

Systematic instruction is given in writing, from first to eight grades, inclusive. In the primary grades the subject is taught by the grade teacher; in grades five to eight, inclusive, by a teacher especially fitted for the work. Excellent standards are set and maintained.

Composition and Grammar

These two subjects are inseparably linked together. Composition involves the development and organization of ideas. Formal grammar should be taught only as it functions as a

part of composition. The texts used in the elementary schools are based on this principal. Oral and written expression dealing with personal experiences of the child, the use of models in so far as they do not stifle the free play of the pupil's own ideas, the use of standards, and competitive activities are emphasized in all our work.

Household Arts

This course, while not so extensive as that found in city systems, is comparable with the best to be found in smaller communities. Full courses of cooking and sewing run through four full years, grades seven to ten, inclusive. In addition to this there is correlated work in design taught by the instructor in fine art. These courses have proved themselves to be of immense value in teaching the girls the fundamentals of good home-making. The aim of the courses is to give both general education as well as technical skill.

Arithmetic

The problem of teaching arithmetic is not a complex one. One of the oldest subjects in the curriculum, as well as one of the most important, it has received its full share of work, and attention of educational investigators. Excellent texts are available, and excellent methods of teaching have been evolved and standardized. Our schools are well equipped with excellent texts, and as in the other subjects beginning with the fifth grade the work is in charge of a teacher especially fitted for it.

Industrial Arts for Boys

This course, like the parallel one for girls in Household Arts, runs through four school years, beginning in the seventh grade and extending through the tenth. The content of the course is mainly wood-working, mechanical drawing, with some printing. Through a series of graded models, the boys are taught the fundamental practices of the wood-working trades. No attempt is made to give vocational training, but through the work a boy may discover his aptitude or bent, which should

lead him to a vocational school. The mechanical drawing is closely correlated with the shop work, and has already proved itself of value to those boys who have graduated from the school and are now engaged in the war industries.

Fine Art and Music

The content and aim of these courses will be found in the special reports of the instructors of these subjects.

Science — Nature Study and Hygiene

This course is a combination of Nature Study and Hygiene. Formerly these subjects were given a separate place in the curriculum, but the addition of the Practical Arts courses required curtailment at some point, and it seemed expedient at least to combine these two subjects. Careful study of the material to be used has been made, and the courses as now outlined and taught, are giving gratifying results.

Geography

During the last decade there has been a vast improvement, not only in the methods of teaching geography, but in the selection of material to be studied. Chief among these are (1) the introduction to home geography, (2) the substitution of descriptive matter in the place of memorizing names and places, (3) the recognition of cause and effect.

By means of home geography the child is led from the known to the unknown, from concrete information which he can gather first-hand to the study of lands and peoples far removed, and which he otherwise would be unable to appreciate. Growing out of home geography, the pupil gradually comes to the comprehension of the world as a whole, through the study of the social side of life, especially the activities of children. An abundance of descriptive material is used in supplementary reading.

History and Civics

The course in history in the elementary school is continuous and carefully correlated. In the early grades much use

is made of concrete material in the form of story or simple description, and care is taken that the material is within the range of the pupil's experience. Before taking up a detailed study of American history in grades seven and eight, especial attention is given to what is termed the "European Background to American History."

The study of industry, society and peaceful arts takes precedence over the history of wars, which are studied more because of their casual relationships. Careful attention is taken to see that the geographical environment of historical facts is understood, in order that the child may get a true perspective. Here, as in geography, a great deal of collateral reading is introduced.

The study of civics has come to occupy a very prominent place in the curriculum. It is an outgrowth of the tendency in all our work to take into account the social background.

Instead of attempting to learn the cold facts of politics and government, attention is given to acquainting the pupil with his own social environment, and government is taught as it functions as a part of the life of society, and the aim is fitting for the duties of citizenship. By a thorough study of the institutions of the community in which he lives, he is led to a clearer understanding of those of the State and Nation.

If any form of government needs civic efficiency backed by a clear understanding of the meaning of democracy and the nature of civic duty, it is certainly ours, for herein lies our safety in the years to come.

Agriculture

Agriculture is not taught in the regular curriculum, but as a supplementary study during the summer months. During the summer of 1916-17 a supervisor of agriculture was engaged by the School Committee. The work was carefully organized and carried on in a thorough manner. Boys' and girls' clubs of various kinds were organized as a part of the State movement, which is directed by the Agricultural College at Amherst. At the fall exhibition many of our boys and girls won State prizes. Recently a poultry club was formed, and the work is progressing very satisfactorily. If it is possible to secure an instructor thi

work should be carried on more extensively during the coming summer.

Kindergarten

At the time of the reorganization of the schools in 1914 a kindergarten was proposed, but as no suitable place was available the organization of this school was postponed. With the acquisition of the Bates Building, the matter was again brought forward and favorably acted upon by the School Committee. For various reasons it was impossible to establish it in its permanent home at the beginning of the school year. It opened in the fall at the Town Hall, but owing to the acuteness of the coal situation, it was later moved to the hall of the Portuguese Benevolent Society. During the Christmas recess and the first two weeks of the new year, alterations exacted by the State were made in the Bates Building and the school is now established in a permanent home.

Many mistaken notions are held concerning the aim, work and value of the kindergarten. Properly organized and conducted, no part of our educational ladder is more important than the kindergarten and surely none has a sounder basis in theory and practice. The successful teacher should be thoroughly grounded in child study. She should know the history of the development of the kindergarten, its theory and methods, and be able to apply her knowledge in directing into the right channels the native and spontaneous impulses of children. The play instinct, the impulse to transform, constructiveness, the impulse to learn from others, imitation, these and other general native tendencies, must be recognized and directed.

Again the kindergarten should not be considered a thing apart from the cycle of school training. The true kindergarten will provide such an environment as will arouse and start in the right path all these activities which ought to prove valuable in later education.

The Secondary School

As the schools are at present organized, there is no distinct line between the elementary and the secondary school, but the former shades gradually into the latter.

The Practical Arts course begins in the seventh grade and

extends through the first two years of High School. College preparation begins with the study of French and elementary science in the eighth grade.

The teacher of reading in the elementary grades teaches English in grades nine and ten corresponding to the first two years of High School. The instructor of modern languages in the High School teaches French in grade eight. In this way elementary and secondary education are closely linked.

As outlined in previous reports, three opportunities are now offered to pupils: (1) College preparation, (2) education for commercial pursuits, (3) education in household arts for girls and prevocational training for boys.

With the close of the school year 1917, the school cycle was reduced from 13 to 12 years.

The Needs of the Schools

(1) Supervised physical training.

(2) More class rooms, with quarters for the practical arts work and a gymnasium.

With these additions the public schools of Cohasset would possess a curriculum and equipment on a par with the best to be found.

Conclusion

Cohasset wishes to have good schools. This is evidenced in many ways. Support is never lacking where there is a clear vision of the things to be accomplished for the betterment of educational opportunities.

Generous, open-minded, wishing to co-operate and assist in a work, the importance of which to State and individual cannot be overestimated, the School Committee has never failed to vote for the best. Such support brings out the best in those actively engaged in the work of the schools. All are grateful.

Respectfully submitted,

S. C. LARY,
Superintendent.

REPORT OF MUSIC DEPARTMENT

*Mr. Stanley C. Lary,
Superintendent of Schools.*

Dear Sir: I submit for your approval my report for 1917.

The plan in regard to the music in the Osgood School is based upon the method which is today taking precedence in the public schools of the country, and as the books in use wear out and need to be renewed, they are replaced by new books of the Progressive Music Series.

Believing that music is one of life's greatest blessings, and that the love of music is inherent in every individual, it is my earnest endeavor to make it such a vital and happy part of the school work that every pupil may wish to add to his musical knowledge in after life.

In the lower grades all the songs possible are taught, filling the child's mind with a store of melodies and verses about everything that appeals to his interest or imagination, action-songs and singing-games adding to the enjoyment and unconsciously helping to establish rhythm and expression.

Sight singing is begun in the second grade and key and time signatures fully understood at the end of the fourth grade.

Fifth grade work includes two-part singing with increasingly difficult music, both as to rhythm and tone intervals, through the eighth grade, when three-part music — introducing the bass clef to the changing voices of the boys — is studied.

The music in the High School is chorus work, and with the variety of material to draw upon, pupils and teachers alike find pleasure in taking up new music and learning to appreciate well-known songs all the better for intelligent understanding.

The three grades of the Beechwood School are taught so that the pupils entering the fourth grade of the Osgood School are prepared to take up the work readily.

I wish to again express my appreciation of your unfailing interest and assistance in my work.

Yours respectfully,

KATHERINE D. STEVENS.

REPORT OF DRAWING DEPARTMENT

Mr. Stanley C. Lary,
Superintendent of Schools.

Dear Sir: I submit for your consideration and approval my fourth annual report.

Each year brings to the Drawing Department new incentives and higher ideals, so that our work has become even more interesting and the results are very encouraging. Drawing, as a subject of study in the public schools, has come to be recognized as one of importance. Its real object is not to make artists or near-artists of the pupils. Comparatively few ever become proficient in this line, but most of us have need almost daily of a knowledge of the principles involved in the usual school drawing course. The object is to teach these principles to the average pupil under average conditions, and to give him the ability to apply them in any field of activity. Drawing has a cultural value aside from the commercial one, in that it teaches discrimination and good taste in the selection of colors and designs in personal attire, and in rugs, wall paper, draperies, and furniture, together with ideas concerning the proper arrangement of these furnishings within the home. Drawing thus helps in the establishment of that restful, peaceful, atmosphere that means so much in the culture, refinement, and joy of the occupants of the home.

With these worthy ideals constantly before us, we have endeavored to correlate the drawing with the work of the sewing and woodwork departments in such a way as to be of real value to the future home builders of Cohasset. Problems in home furnishing are designed by the pupils and are then worked out in these departments.

Our usual exhibition was held in June at the Bates Building, giving a necessarily limited review of the year's work.

In conclusion, I wish to express my appreciation of your encouragement and co-operation toward the work of the Drawing Department.

Respectfully submitted,

FLORENCE E. KRAUS.

REPORT OF SCHOOL PHYSICIAN.

The most important new work undertaken the past year has been the systematic examination of the pupils' teeth. Without attempting an exhaustive search, such as a dentist would make, I have noted obvious defects and have notified the parents in each case, with the request that the teeth should receive treatment. Several parents have thanked me for calling the matter to their attention and have expressed a willingness to provide the necessary treatment. I have supplemented the examination by brief talks on the teeth to the pupils in each schoolroom.

In the Osgood and Beechwood Schools, 446 pupils were examined and only 107 (about 24 per cent) were found to have sound teeth. The High School made the best showing with 45 per cent of good teeth, while in two grades, only one pupil in each room was found to have teeth free from defects.

Many parents fail to realize that the first teeth of the permanent set appear as early as the sixth year. As these are back teeth, they do not attract attention, and unfortunately they frequently become decayed beyond recovery before the parents know they are there. As a matter of fact, several pupils in the first grade at ages of six or seven showed marked decay of these "six year molars." Children's teeth should be watched with the greatest care from five years old and upward. Even before the age of five, dental supervision of the temporary set will often aid in the proper development of the jaw and cause the permanent set to come more evenly. By such means one can hope to avoid tedious and expensive methods of straightening the front teeth.

I shall soon make another examination and hope to record marked improvement. We are reminded every day that "food will win the war," but the army authorities very wisely refuse to accept men with bad teeth, knowing that they will not make effective soldiers. The same conditions apply to civil life and we must see to it that our children are not handicapped in their lifework by bad teeth and resulting invalidism.

I thank the Committee, the Superintendent, the teachers, and the school nurse for their hearty co-operation.

Respectfully submitted,

OLIVER H. HOWE, M. D.

STATISTICAL TABLES

Statistics for the Year Ending June 15, 1917

Table I

Beechwood Schools:

Grades I, II, III,	21.	19.	17.6	92.6
